Accordingly G.O. No.CI 162 SPI 2013, dated 27.09.2013 was issued read at (2) above.

On the request of the company subject was placed for discussion in the 94<sup>th</sup> SLSWCC meeting held on 27.09.2016 and accorded approval for extension of time to implement the project by 2 years. Accordingly G.O. No.CI 162 SPI 2013, dated 19.10.2016 was issued read at (4) above which is valid upto 18.10.2018.

Now the company in their letter dated 11.09.2018 have informed that, they have already commissioned the "Second Unit of 100 TPD Sponge Iron and 10 MW Captive Power Plant" with a capital investment of Rs.120.00 crore and created employment for about 300 persons. However all the facilities are not implemented due to the following reasons:

- Mining Lease - The allotted ore reserve in Chikanayakanahalli of about 1 Million TPD is insufficient.
- Mining Lease is not executed due to overlapping of leases allotted to various companies.
- Proposal of Mining department for revised survey due to shortage of forest land etc.
- On absence of the sufficient ore, company is compelled to purchase iron ore from the open market at very high rates which have affected the margins. Under these circumstances Bankers have advised the company to implement the project in Phases.
- The procedural delay in taking physical possession of land.
- Bankers have expressed their support for funding of the project subject to the Government's approval for extension of the period.

In view of the above, company has requested for extension of time for further 5 years to implement the project.

**Recommendation of the meeting held under the chairmanship of Principal Secretary to Government, Commerce & Industries Department on 04.01.2019:**

The representatives of the company informed that due to non execution of mining lease agreement and in the absence of sufficient Iron ore they were able to commission only 100 TPD Sponge Iron and 10 MW Captive Power Plant. In view of this, their Bankers have agreed to support funding for the project in phases. He has requested extension of time for implementation of the project by 5 years.

It was noted that the project was approved in the year 2013 and extension of time by another 5 years is too long a period and hence advised the project proponent to complete the implementation in 2 years.

The same was noted in the meeting and after detailed discussions it was decided to recommend to SLSWCC for granting extension of time by 2 years to implement the project.

The proposal was examined & approved in the 113<sup>th</sup> SLSWCC Meeting held on 07.01.2019.
